

# THE BLAIRMORE ENTERPRISE

VOL. XV, NO. 12

BLAIRMORE, ALBERTA, THURSDAY, MARCH 20, 1924.

\$2.00 YEARLY

The old man, against whom a charge was preferred last week following a test of his breath by a police officer, just a few days ago passed his seventy-seventh birthday, and in much regard for his years is held that the charge is still pending against him.

"Aggie" McPhail has decided that Ontario will go wet.

Richard E. A. Leach, chairman of the Saskatchewan liquor commission, and J. L. Buckley, chief enforcement officer, have been arrested on charges of theft.

## ANNIVERSARY OF UNION CHURCH

Next Sunday and Monday will be red-letter days in the annals of the Union church life of this community, marking as it does the sixth anniversary of the uniting of the Baptist, Presbyterian and Methodist denominations.

The union here is looked upon as unique, as it is the only instance known in Canada where the Baptists have decided to become a part of the organic union with the other three bodies whose application is still being considered by the federal and provincial parliaments.

Success has crowned every undertaking of the Union here and the work of the church has grown to such an extent that larger quarters for the accommodation of the congregations and the work of the various auxiliary organizations is becoming a serious problem.

On Sunday next, the anniversary services will be held. The church board has been fortunate in securing Rev. Thomas Powell, superintendent of Methodist missions, to speak on this occasion. Services will be held at 11 a.m. and 7:30 p.m., and Mr. Powell will also address the young people at the Sunday School gathering in the afternoon. On Monday evening, at the church, Mr. Powell will lecture on the subject: "Success, What it is and How Achieved."

As a speaker, Mr. Powell is outstanding and no doubt will be welcomed on this occasion.

The collections at the Sunday services and at the lecture will go towards the church building fund.

Two dozen Czech-Slovakians have been landed in Lethbridge, where they are reported stranded. Not one of the bunch can speak English.

## MINERS WARNED TO BE READY TO STRIKE APRIL 1

The first steps towards a coal miners' strike in Alberta were taken on Monday morning by all the locals of the United Mine Workers of America in District 18 being advised to prepare for a strike on April 1, when the present contract with the operators terminates. As matters stand now, when the whistles at the mines at the various union camps blow at the close of the day on March 31, they will signify the commencement of what may be one of the longest drawn out strikes in the annals of the coal mining industry of the province.

W. A. Sherman III

W. A. Sherman, president of District 18, was laid up at his home on Monday owing to illness, but it is expected he will be able to resume his official duties shortly. In his absence, William Ryan, vice-president, and Robert Peacock, secretary-treasurer, intimated that there was not the remotest chance of negotiations being re-opened. The miners, they told of the members is that they cannot pay the present wages and meet said, were adamant against any reduction being made in the present scale of wages.

All the operators have now left for their respective homes, and so have the members of the miners' conference committee.

**Bitter Battle Expected**  
While it has been said that the forthcoming struggle will likely be the most bitter that has ever been waged in District 18, it is being fought by the operators on purely economic grounds. There is no intention on the part of the Western Canadian Coal Operators' Association to destroy the men's union. The attitude the heavy competition of non-union mines.

An Immediate Effect

One of the first effects of the impending strike is the rush that has set in on the part of the public in replenishing their supply of coal. Stocks generally at the yards are pretty low just at present owing to the exceptionally mild weather. It is anticipated, however, that all domestic mines will be running to capacity, however, between now and the end of the month.

Cause of Deadlock

The cause occurred over the operators' proposal for a reduction of \$1.17 per day in the wages of all employees, per day in the wages of all employees listing wage scale be continued for three years.

Simultaneously with the rupture came the announcement that the Greenfield government had consented to the appointment of a commission to inquire into the coal industry. From what can be gathered, the creation of the commission had no bearing upon the break which occurred between the operators and miners.

8,000 Miners Affected

Approximately 8,000 to 10,000 miners will be affected when the strike takes place on April 1. President J. L. Lewis, of the headquarters of the U.M.W.A., in Indianapolis, has been fully advised of the turn of events in District 18. District officials of the organization are relying on strong stands support during the forthcoming struggle.

John Zarycki, of Hillcrest, was granted an order nisi from his wife, Annie, of Diamond City, by Judge Simmons, at Lethbridge a few weeks ago. The order is to be made absolute in three months with the plaintiff to have the custody of the children as soon as he makes satisfactory arrangements. L. H. Putnam handled the case for the plaintiff. George Zavada, of Diamond City, is co-respondent.

The prairie chicken season has been extended from two weeks to one month.

## SLOT MACHINE CONVICTION QUASHED

Word was received from Calgary on Tuesday morning that the court of appeal had quashed the conviction handed down locally recently against William Knight for operating a government licensed slot machine. This case was made a test, Mr. L. H. Putnam acting for the appellant. Had the appeal failed, a whole batch of similar cases would have been proceeded with.

Three of the Rossland hockey team, champions of British Columbia, and who recently lost out in a play-off with Bellevue, Alberta champions, have already left Rossland. Cavanagh has gone to Chicago, Singer and Nelson to Coleman.

The town has a gang of men, under Superintendent Louheed, engaged building a stone and cement cribbing along the east side of Lyon Creek, between the C.P.R. and Victoria Street bridges.

## Canada's Coal Problem

As this article is being written a conference of vital importance to all Canada, and one that, if it reaches a wise decision, will have a far-reaching effect on the whole Dominion, is proceeding at Calgary. Possibly these words appear in print the day will have been cast for good or ill, but regardless of what that decision may be we are convinced that sooner or later the views herein expressed must, and will, prevail.

The conference to which reference is made is that between the coal operators, or mine owners, of Alberta and the officials of what is known as District 18 of the United Mine Workers' of America; in other words, the miners' union. On April 1 the existing contracts and wage agreements between the mine operators and the Union expired, and the conference is proceeding with the object of negotiating new agreements.

The Union leaders are reported as insisting upon the maintenance of the existing high wage schedules, and in so doing are standing on the declaration of policy of the recent convention of the United Mine Workers at Indianapolis against any reduction in wages and a four-year contract. In other words, the demand is that the peak wage shall continue to prevail.

One of the forceful arguments advanced by the Alberta miners in support of the unusually high wages they now receive is that mining operations are only carried on to full capacity for a matter of the six or seven winter months, and that during that period they must earn enough to maintain themselves and families for twelve months.

Within recent years, and particularly last year, vigorous efforts have been made to overcome this difficulty and, by finding an outlet for the year-round market for Alberta coal, guarantee continuous employment to the miners, and, also, through the resultant enormous increase in production reduce overhead costs per ton of coal mined, give needed stability to the industry, and reduce the selling price to the consumer.

To realize this object two main difficulties have to be overcome. The necessary market for all the coal Alberta can mine exists in Ontario and Western Quebec. Ontario is clamoring for Alberta coal, because experimental shipments and tests have demonstrated its quality as satisfactory. But Ontario is a long distance away, and the cost of transporting the coal so excessive as to make the price prohibitive in competition with coal from the United States.

The second difficulty is found in the abnormally high wages paid coal miners in Alberta which makes the cost of coal at the pit mouth high, and which, coupled with transportation costs, makes its marketing and sale in Ontario impossible.

The result is that with billions of tons of coal in Alberta, Ontario continues year after year paying \$150,000,000 to the United States for coal, while the Alberta miners elude the market for their own coal. The result is that Canada's adverse balance of trade with the United States is thus swollen, our money is drained away across the line, United States miners are kept busy while Canadian miners are idle, and United States railways get traffic which our railways ought to have and need, and Ontario's industries are in jeopardy and may be ruined and thousands of workers thrown out of employment if at any time conditions develop which may force the prohibition of export of coal by the United States.

But if, instead of demanding the highest wages paid to any group of miners on the American continent, the Alberta miners would agree to accept a reasonable wage schedule, the cost of coal at the pit mouth could be reduced, and by continuing mining operations throughout the summer months permit of the rail movement of coal to Ontario during the slackest months in Western transportation activities, and thereby make possible a lower freight rate. Thus the two main obstacles to Ontario being supplied on a commercial basis with Alberta coal would be reduced if not entirely overcome.

With all the year round employment guaranteed to them the Alberta miners and their families would be better off financially, mentally and morally at a reduced wage than with the now prevailing high wage, but with steady employment for only about half the year. Full time operation of the mines would place the coal industry of Alberta on a firm foundation which it has hitherto lacked, would encourage capital and development, thereby creating more and more employment, and, as already stated, reduce overhead costs of production so that the Ontario market could be served, and, what is of equal importance, the present high price of coal to the prairie consumer reduced to a reasonable figure.

If sound business principles and common sense are allowed to prevail at the Calgary conference instead of a "Made in the United States" policy for the United Mine Workers being enforced through which that country is enabled to keep control of the rich Eastern Canada market for coal, then a brighter future will dawn for the Alberta miners, and lasting benefits conferred on the Dominion through the inauguration of policies tending to make Canada a more self-contained, self-supporting country, the absence of which condition is today our outstanding national weakness.

### Good Muskrat Season in Manitoba

Manitoba trappers are preparing for one of the best muskrat seasons for a number of years, according to officials of the Manitoba game branch. Absence of deep snow along the creeks and marshes frequented by the muskrats will make them easily reached, and, with so much open water, they have come into the open much earlier than usual. Experts claim the fur is more prime now than it ordinarily would be at the opening of the season.

For many years women have served as town councillors in Reykjavik, the capital of Iceland.

Manila rope is made from the stems of the leaves of a species of banana.

## CHILDREN CRY FOR "CASTORIA"

The genuine bears signature of

*Wm. D. Fletcher*

### Civil Service Reduction

Premier King Says Reduction Will Be Carried Out Slowly

While the government plans reductions in the civil service, they will be effected gradually, and with such consideration as will involve the minimum of hardship, Premier Mackenzie King told the board of control and the city members at Ottawa.

The premier said the government was now preparing its estimates for parliament, which would expect it to show very substantial reductions. However, any that were made would not be effective until the first of the fiscal year, April 1.

Hon. James Munkook remarked that any of those laid off would carry two months' pay, which would carry them over until June 1.

### One Thing At A Time

Too Many Transportation Problems Before the Public

A resolution urging the early completion of the branch lines projected by the Canadian National Railways in this province has already been adopted by the legislature.

A resolution urging the completion of the Hudson's Bay Railway is now before the legislature and will undoubtedly be adopted.

The Great Lakes-St. Lawrence canalization project is being pushed in this province. A gentleman from the United States who is interested in it addressed a committee of the legislature recently and spoke at the School Trustees convention in Saskatoon.

The "western route" for grain shipments through Vancouver has its champions in Saskatchewan, as naturally has also the established eastern route through Winnipeg and the Great Lakes.

At the present time the transportation problem in Saskatchewan is split five different ways—or at least four different ways, as the branch lines question is purely local in its primary aspect, although it has ramifications which make it both a provincial and a national matter.

The desirability of the people of this province making up their mind as to what they want and when they want it in respect to the transportation questions referred to is apparent. They will get nothing unless they can show that they know what they want and are determined to fight for it—Regina Leader.

The desirability of the people of this province making up their mind as to what they want and when they want it in respect to the transportation questions referred to is apparent. They will get nothing unless they can show that they know what they want and are determined to fight for it—Regina Leader.

The "western route" for grain shipments through Vancouver has its champions in Saskatchewan, as naturally has also the established eastern route through Winnipeg and the Great Lakes.

At the present time the transportation problem in Saskatchewan is split five different ways—or at least four different ways, as the branch lines question is purely local in its primary aspect, although it has ramifications which make it both a provincial and a national matter.

## ROYAL YEAST CAKES

Good home-made bread is the finest food on earth—the one food that everybody eats—that everybody likes—and that agrees with everybody.

### Want Athabasca Sands

California Men Request Sample of Oil Extraction Tests

Many requests are reaching the Dominion lands office here for experimental purposes. The majority of these come from persons in the States who are experimenting with extraction processes, which endeavors are being made to solve the commercial problems in connection with this mineral.

A number

## FIRST ECONOMIC CONFERENCE IS HELD IN WINNIPEG

Winnipeg.—Organization of a permanent association to assist in bringing commercial and agricultural communities back to normal probably will be the result of a two-day Manitoba economic conference, which concluded its sessions here. A committee was formed to effect a permanent organization, which will, it is expected, include presidents of agricultural societies, and representatives of industry, commerce, labor, professions and education.

Many resolutions were adopted, including one urging completion of the Hudson's Bay Railway this year and the development of Northern Manitoba resources.

Other resolutions endorsed urged the appointment of an economic research committee; diversification of agriculture in order to lower cost of production, distribution risks, and increase annual farm revenue; standardization and improvement in the quality of farm products, with a view to developing a greater demand for the products of Manitoba farms; encouragement of co-operation in marketing; encouragement of selective immigration; and the readjustment of agricultural credit facilities in order to aid economic and diversified production.

The conference also approved a resolution declaring that steps should be taken to curtail overhead expense in public services, so that every dollar of public money may be efficiently used for the prosperity of the community.

It was Manitoba's first economic conference, and was attended by 200 delegates, representing various organizations throughout the province.

### Budget Speech Soon

Adjustment in Tariff on Agricultural Implements Is Expected

Ottawa.—The budget this year promises to be extraordinary. It is intimated that the proposals are so near finality as to suggest the likelihood of the speech within three weeks. Meanwhile, providing an interim supply bill gets out of the way, before the session, the budget will, in some degree, be the sales tax, a few possible changes in income tax and adjustments in the tariff on the implements of production, with their exemption from the sales tax and duty free material entering into them, are the present forecast of the budget.

## THE MANY ILLS THAT CONFRONT THE FARMERS

Winnipeg.—"On the average the farmer pays 70 per cent. more for his goods today while for his products he gets only 13 per cent. more than in 1913, and that is what is wrong with agriculture," declared Hon. T. A. Cregar, M.P., before the Manitoba Economic Conference here.

It was the cause of hundreds of young men leaving the farms and seeking work in the city. It was robbing the farm of the labor it needed, and was economically unsound. It was a problem, not alone for farmers, but for other homes to endeavor to solve, Mr. Cregar said.

The remedy, Mr. Cregar believed lay in lower cost of production. The increased cost of producing goods required by the farmer was due largely to the cost of labor and decrease of hours of work. He was not dealing with the right or wrong of labor's attitude, but how it affected the farmer.

If costs, however, did not come down, Manitoba farmers would be increasing numbers, by living within themselves. They would make many things they now buy, and that would not be a good thing for business.

Transportation was of vital importance to the farmer. Rates might be brought down if traffic could be increased, and this could be brought about by immigration of the right kind.

## Decrease In British War Expenditures

London.—Alighting to the anxious inquiries by many as to why there should be an increase in armaments, William Loach, Under-Secretary to the Air Ministry, during a discussion of air estimates in the House of Commons, said the answer was that the government was not increasing, but adjusting armaments to the forces, army, navy and air, with the net result that there would be a considerable decrease in war expenditures for the year. By March, 1925, the estimates would be ready for home defense out of fifty-two proposed within the next five years.

### Church Union Bill

Given Third Reading in Manitoba Legislature Without Discussion

Winnipeg.—Without discussion, the bill to incorporate the United Church of Canada was given its third reading in the Manitoba Legislature. During discussion of the motion dealing with the appointment of a commission to divide and distribute church property, Attorney-General Craig expressed strong dissatisfaction over the limited powers which the federal commission was to come before the Dominion Parliament. It could only distribute general church property, he pointed out, and gave the minority of the congregation the right either in respect of division of general or congregational property. He believed that the commission should be vested with some such discretionary powers as has been given the commission in the case of the division of property of the Free Church of Scotland and the United Free Church. If the final word on the legislation had been left to the Manitoba Legislature, Mr. Craig declared he would have moved an amendment to give effect to this feature.

### France Secures Loan

Large Banking Credit Is Arranged By U.S. Financiers

New York.—Establishment of a banking credit of not less than \$100,000,000 in favor of the Bank of France has been arranged by an American banking group headed by J. P. Morgan and Company. It is announced. The loan is fully secured, by gold held in the vaults of the Bank of France, which is acting for the French Government, and will be used to stabilize French exchange and for other purposes which the French Government may determine.

While details of the loan were not made public, it is understood that it will not run for more than one year. In the event that the credit is not, as anticipated, introduced in other ways, gold in amount equal to the loan will be shipped to the Morgan firm in New York.

### Strengthen Bonds of Empire

Ramsay MacDonald Urges Personal Contact With Various Governments

London.—"To strengthen the British Empire was one of the fabrics which, in some people's opinion, would be the first to fall under the advent of a Labor Government," declared Premier Ramsay MacDonald at the annual meeting of the Empire Parliamentary Association. "The real fact is, the Premier continued, 'we are anxious to make this country so big and influential, in the best sense of the term, that the great Dominions will find profit of being associated with it.'"

Premier MacDonald urged that only by constant personal contact could the various governments of the Empire maintain harmony.

### Canadian Operative Stars

New York.—Two Canadian operatic stars are included in the roster of an "American" grand opera company organized under direction of Paul LePage, which will give a season of operas at the theatre Royal, Birmingham, Paris in May and June. They are Jeanne Gordon, formerly of Toronto, and Edward Johnson, a native of Guelph, Ont. Both are now members of the Metropolitan Opera Company.

## WILL OPPOSE ANY INCREASE IN EXPRESS RATES

Ottawa.—The province of Alberta is strongly opposed to any increase in express rates, and would urge that any revision be of a downward and equalizing character," said A. Chard, traffic supervisor for the Alberta Government, in a statement read before the Board of Railway Commissioners at the hearing of the Express Traffic Association's application for an increase in rates.

"To charge the consumer in Calgary \$2.40 per hundredweight to bring his fruit in carload lots from Okanagan Landing, 358 miles away, while the man in Montreal can get his fruit from Grimsby, Ont., a distance of 290 miles, in any quantity for 25 cents," said Mr. Chard, "is a fairly good reason why fruit is not moving to the prairies in any substantial quantity."

It is true the rate applicable to Calgary is a blanket rate, extending as far east as Winnipeg, but that does not justify the fact that the consumer in Alberta has to carry the load in order that the producer in British Columbia may extend his market to Manitoba, even if the latter rate were a low rate, which it is not, as compared with the rate applicable in Eastern Canada. For instance, the rate from Okanagan Landing to Winnipeg, 1,190 miles, is \$2.40 per hundred pounds, while the rate from Grimsby, Ont., to Halifax, a distance of 1,155 miles, is \$1.50. This long distance blanket rate, being 60 per cent. higher than for a similar distance movement in the east, is imposing a burden indeed.

"Likewise," said Mr. Chard, "when the consumer in Edmonton wants to eat fish which he gets from Vancouver, 770 miles away, he pays \$3.35 per hundred pounds, while the consumer in Montreal can bring his fish from Halifax, a distance of 841 miles, for \$1.50. These are some of the reasons why Alberta will support British Columbia in her application for consideration of the commodity rates into the prairies. There should be no rate structure that will prohibit the free exchange of commodities inter-provincially between Alberta and British Columbia. Our grain, livestock, agricultural products and coal should be allowed to flow freely to the Pacific coast, on an equal basis, as compared with the east. Likewise, there should be no barrier to our importing oil, tea, our sugar, our lumber, our fruit, our fish, in fact, all commodities which we consume."

### Irish Army Troubles

Dissatisfaction Stated to be of Long Standing

Dublin.—General Tobin, a leader of the mutinous faction in the Irish Free State Army, told newspaper men here that the trouble in the army was not of recent date, but was connected with the recent forced demobilization of numerous officers. Shortly after the death of Michael Collins, the situation was allowed to drift. Former British officers were placed in high positions while those who had made the Free State Government were forced out or put in minor positions. Guarantees were repeatedly promised but the promises were always broken, General Tobin declared.

### Increase in Marriages

Ottawa.—Marriage seems to be increasing in popularity. According to a census bulletin recently issued, the proportion of married persons in each sex was greater in 1922, when the last census was taken, than in either 1911 or 1901. In 1921 the percentage of married males was 37.49 and of married females 38.32. In 1911 the percentage was: Married males, 34.85; married females, 35.97.

### Paid By Steamship Companies

Ottawa.—The refunds being made to settlers arriving in Canada are being supplied by the steamship companies, and not by the federal treasury. Acting Finance Minister Robt. Ingham informed Right Hon. Arthur Meighen, opposition leader, in the House. He added that it applied only to those who came from the United Kingdom.

### Dutch Farmers For B.C.

Victoria, B.C.—To examine lands in the Stuart Lake district of Northern British Columbia, in preparation for the establishment of a colony of Dutch farmers there, representatives of a Dutch emigration organization probably will come to British Columbia shortly.

By Air Between Sweden and England

Stockholm.—A regular air service to connect Sweden and England will be established shortly. Only six hours will be required for the flight.

W. M. U. 1516

### Saskatchewan Estimates

Proposed Expenditures Show a Reduction of Over a Million Dollars

Regina.—With a total estimated revenue of \$16,504,920 and a total estimated expenditure of \$16,525,820 for the fiscal year ending April 30, 1925, the Saskatchewan Government hopes to make its budget practically balanced according to the estimates filed in the provincial legislature by Premier Dunning.

A comparison with the estimates for the preceding year indicates there is no intention of providing for any material increase in revenue by the adoption of new or increased taxation. Estimated expenditures show a reduction of \$1,299,798 as compared with the estimates for the previous fiscal year and estimated revenue a decrease of \$1,335,563.

By accepting the United Church of Canada consideration clause by clause over a period of several weeks and listening to heated wrangles between the opposing factions, the legislative committee on private bills completed their review of the various clauses of the measure and arrived at a basis of report. No amendments were made conflicting with the broad principle of the bill.

### To Tour West

Members of Ontario Boards of Trade Will Take Western Jaunt This Summer

Regina.—Members of boards of trade in Ontario expect to tour the west during the coming summer, investigating themselves of conditions at the time.

The tour is being conducted under the auspices of the London (Ont.) Free Press, and the party will reach Regina, according to the present programme on June 24, staying in the hotel from 2 o'clock that afternoon until midnight.

## SAYS WEST HAS NOT RECEIVED FAIR TREATMENT

Ottawa.—The recent speech in the House by Hon. R. J. Manion (Conservative, Port William), was critically analyzed by Alfred Speakman (Progressive, Red Deer). Progressives, he said, might be accurately described as benevolently neutral, provided that term was taken to mean that they were sitting tight, but always on the watch. He would support any legislation from any quarter of the House if it accorded with the views and interests of his constituents.

Manion said that Mr. Manion was probably right when he said that there was much depression in Canadian industry, but he did not think increased protection would pull them out of their depression. The contention that it would be unfair to remove the protection from industries which had enjoyed it for many years, especially if they were not in good shape, was not a reasonable one, said Mr. Speakman.

If any farmer of the West had been bonused for 15, 25 and 50 years by the government, and at the end of that time could not make farming pay without the bonus, it was time he left the farm.

Mr. Speakman called special attention to the three problems of taxation, credits and transportation. He admitted that heavy taxation would be a continuing necessity, owing to fixed charges and uncontrollable expenditures. He urged the necessity of using the best method of taxation, and advocated the income tax as the most equitable of all. He urged government action in regard to credits, not to extend, but to consolidate, the businesses of western farmers. In regard to transportation, he asked for equality between east and west in freight rates. He closed by stating that all desired national unity, but that it could not be denied that there was not a feeling of harmony between all parts of Canada. The west had not been treated fairly, and western members called attention to this, not with a view to winning, but in order that it should be recognized as a remedy provided.

## Carnarvon Controversy Reaches a Deadlock

Cairo, Egypt.—The negotiations for a peaceful solution of the controversy over the tomb of Tutankhamen have collapsed and it is understood the Egyptian Government has withdrawn its offer of a new concession to the Countess Carnarvon, to carry on the work in the tomb begun by her late husband. The breaking off of negotiations was due to a remark made in court by the lawyer, representing the Carnarvon trustees. The lawyer, referring to the action of the minister of public works in closing the tomb, referred to the Egyptian ministers as bandits.

### Alberta Election Act

Candidates in Provincial Elections Need 25 Names on Nomination Papers

Edmonton.—Candidates in the provincial elections in the future will be required to have 25 signatures on their nomination papers before their names will be put on the ballot papers, according to an amendment to the proposed election bill which was passed by the committee of the whole in the election act, only four nominees were required.

The residence qualifications in the new bill have also been modified. Only two months' residence in the electoral division will be required, instead of three, as was the case in the past. The voter, however, is required to have been resident in the province for at least 12 months previous to the election.

W. G. Johnson (Labour, Medicine Hat), suggested that some provisions be made whereby women who were British subjects, but who married men who were unqualified, would be given an opportunity to vote. At the present time, immediately a woman marries, she adopts the nationality of her husband, and may be disfranchised.

### British Legation Damaged by Bomb

Greek Officials Express Regret at Outrage at Athens

Athens.—A bomb was exploded at the entrance to the British legation, causing material damage, but injuring no one. Greek officials expressed belief that the incident was staged in an effort to discredit the government.

The Premier and the Minister of the Interior expressed the regrets of the Greek Government to the British Minister for the outrage. An inquiry was opened under the direction of British police officials and several suspects were detained.

### Fat Stock Show

Saskatoon, Sask.—A great showing of beef cattle, many of them prize winners at the Manitoba provincial winter fair at Brandon, and prize winners from all parts of Western Canada, marked the opening in the exhibition grounds of Saskatoon's 1924 annual horse and fat stock show.

This year there are approximately 150 more animals exhibited than in 1923, when an entry list of just over 500 was regarded as a record.

### Ada Blackjack Ill

Seattle, Wn.—Ada Blackjack, 25-year-old Eskimo woman who was the sole survivor of the Wrangell Arctic expedition rescued by Harold Norse last summer, is in the city hospital with her seven-year-old son, Bennett, suffering from tonsillitis. She has been living with her boy in rooms in destitute circumstances.

### Vatican Independence

London.—The Daily Express gives great prominence to a statement to the effect that a dispute between the Pope and the Italian Government is about to be settled and that, in consequence, the Pope no longer will consider himself a prisoner in the Vatican.

The Caliphate from now on will be personified by the Turkish Parliament, according to an announcement by Mustafa Kemal Pasha, president of the Turkish republic.

## ARGUMENTS ON FREE TRADE ARE HEARD IN HOUSE

Ottawa.—W. G. Raymond, Liberal member for Brantford, in the House, declared himself firmly opposed to any reduction in the tariff on agricultural implements. The present duty had reached an irreducible minimum, he contended. Mr. Raymond is the third Liberal, who, during the debate on the address, has expressed his opposition to rumored tariff changes.

Mr. Raymond doubted if the Farmer party really believed in free trade as a principle. If tender land said somewhere that the basis of national unity was equal justice for all. Did he believe in one part of the country being free trade while the rest was under bonds of protection.

Mr. Raymond asked the Progressives supported free trade for all or merely in implements. At all events, equal justice for all could not be reconciled to the strangling of one industry for the benefit of another. Implement makers in Canada were working at a loss, and any further reduction in the duty would mean extinction of the industry.

The attitude of the Progressives was inconsistent, inasmuch as they demanded the Hudson's Bay Railway, the construction of branch lines and other improvements, and apparently did not propose to contribute to their cost. Would removing the tariff from agricultural implements pay for their building the Hudson's Bay Railway? This constant cry for tariff reduction, in order that the farmer might improve his condition, had its basis in a false point of view. Over in the United States there were 600,000 deserted farms, but no one would suggest that this was due to the tariff. The question was one of treating industries fairly.

W. C. Good, Progressive, of Brant, followed. His constituency adjoints that of Mr. Raymond. He stressed the difficulties of the farmer, remarking that he himself had a farm which he could not rent, although within 2½ miles of the "home market" of Brantford. Brantford agricultural implements were sold throughout the world, commented Mr. Good, yet evidently there was fear of competition at home.

Progressives had been frequently charged with being sectional. He could not see how any charge of that kind could be laid at their doors which could not be met much more properly by the door of Mr. Raymond. (Progressive cheers). However, continued Mr. Good, he was prepared to endorse what Mr. Raymond had said in regard to discrimination against any particular industry or locality. He believed that he spoke for those in his own group when he said that what they wanted was a general reduction in the necessities of life. (Progressive cheers). Mr. Good declared that what the Progressives wanted was a general reduction, not special privileges, nor a sop to the farmers.

### Bananas in Berlin

Berlin.—For the first time in years Berlin cannot truthfully sing, "Yes, We Have No Bananas." For nearly 10 years all the bananas found here were smuggled in at fabulous prices. Now they are openly imported.

### Edmonton Stampede

Edmonton.—Directors of the Exhibition Association here approved a plan for the presentation of a "stampede" here next summer after the nature of the annual event in Calgary.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Mar. 20, 1924

A resident of a neighboring town is taking exception to the following item which appeared in last week's issue of The Enterprise:

"A Pass merchant has seen fit to get advertising matter for a 'Big Sale' (?) printed in Calgary, and we have been assured by no less than a score of men and women, would-be patrons, that not a cent of theirs will go that way and that they will bring influence to bear upon others in support of their belief in the policy of home patronage. We wonder what portion of that firm's sale revenue will be derived from Calgary."

While any person can see that the item does not mention that town or any other town in particular, it is difficult to understand why, if the facts, that he would go so far in the way of retaliation as to cause other uninterested parties to suffer. We are informed that he accepts no blame for the printing of his sale bills, etc., being done in Calgary, that a contract had been entered into with the sales manager, who was to furnish the advertising matter, and naturally was to procure same where he pleased. Such statement is acceptable to us and we regret that the feelings of this merchant have become so hurt over the matter, and trust, as far as he is concerned, that this explanation will be satisfactory.

But, we wish further to state that the cap was not intended entirely for the party who claimed it, for our attention was drawn to several other instances through The Pass, where advertising matter was brought in from Calgary and other sources that was easily procurable right in the district. Every merchant looks to the people of his own community for patronage and support and is very much put out if he finds that any portion of the trade to which he feels he is entitled and which he has done his part to maintain, is going elsewhere. The field of a newspaper is much larger than the field of a town retail merchant and naturally the newspaper should feel equally disappointed when printing is being done outside its field that can be done just as well at just as good a price and in less time at home. The Enterprise territory covers the district from Michel to the West and Cowley to the East, and we always refer to the district as "The Pass." We have equipped ourselves with machinery to handle any kind or quantity of printing desired and feel that as we have shown our faith by so establishing ourselves, we are entitled to support from every person and institution.

Further, we are strong advocates of home patronage and are out to support all who support us. We buy nothing from afar that can possibly be had at home and any merchant in our territory is considered our home merchant.

### BELIEVED TO BE FORMER MEMBER OF R. C. M. P.

The following news item has appeared in the Vancouver Sun:

Frederick Lobb, alias Fritz Leobe, 34, a German, said to have been employed as a constable by the Canadian National Railways, was arrested here last night by Detectives J. Killen and P. Raines and is held for the police of Hope, B. C.

According to information received by Vancouver authorities, several days ago a man, in whose possession a quantity of goods, alleged to have been stolen from railway cars at Hope, was arrested crossing the international border and is reported to have made a statement that implicated Lobb in the theft of the goods.

### USE CORBIN COAL FOR NEW PROCESS

The manufacture of "super-coal" a fuel that threatens to revolutionize the coal industry will shortly commence in the city of Spokane according to an article appearing in a recent issue of the Spokesman-Review of that city. "Super-coal" is a combination of soft coal and oil, made from a special, patented process. The coal for the Spokane plant will be drawn from the Corbin mines, in British Columbia, which will probably mean steady operation of the collieries of that camp.

A. M. Witherspoon, Spokane business man is president of the company, and Spokane and New York capitalists are financially interested. The company will be incorporated for \$100,000. The plant will have an initial capacity of 500 tons daily. The oil supply will be contracted for in the Kevin-Sunburst field. The plant will be ready to start operating in 90 days, it is expected.

Cheaper Than Domestic Coal  
It is said for this new fuel product that it has heating value equal to the best anthracite, ton for ton, and that it can be placed on the market cheaper than the present domestic coal. The coal is ground to the consistency of flour, and then mixed with the oil. The finished product resembles round black balls of varying size. It can be used for any purpose, and leaves little or no ash. It is now being successfully manufactured and distributed in different parts of the States so that the Spokane people are confident of making good at the venture.

In connection with the new company, Mr. Witherspoon announced a reorganization yesterday of the Corbin Coal and Coke company at a stockholders' meeting in Spokane. The entire assets of the company, representing \$5,000,000, were transferred to the Corbin Coal, Inc., of British Columbia. The assets are mainly coal-mines in the coast province.

The company is now controlled by Spokane and New York capitalists. Officers elected recently are: A. W. Witherspoon, president; Austin Corbin, vice-president, and William Weaver Heaton, New York, secretary treasurer.

### UNIVERSITY CO-EDS WIN IN RECENT DEBATE

Co-ed debaters of the University of B. C. carried off premier honors Saturday night in their debate against representatives of Willamette college of Portland, Oregon. The B. C. women received the favorable judgment from the three judges. Winnie Cawthorne, of Arts '24 and Greta Mather, Arts '24, were the speakers for the local college, while the visitors were Esther Moyer and Elaine Oberg.

This is the first debate for co-eds that has been staged locally and the second debate in which the U. B. C. women have taken part. Three years ago they were defeated by Willamette speakers at Portland.  
Winnie Cawthorne opened the attack when she endeavored to show that France should evacuate the Ruhr immediately. She based her argument on legal and political reasons, stating that France is using a doubtful interpretation of an ambiguous clause of the peace treaty of the Great War. She also stated that France was a military menace to the world and that her action would harm herself.

Esther Moyer, opening the case for the negative, proved she was an able debater. She endeavored to show that the occupation of the Ruhr Valley was justifiable since it is the only means of collecting the reparations. She stated that while Germany was fairly prosperous France was building her devastated areas at the expense of her taxpayers. The defeated country

Lobb will be held for police escort from Hope.

The man Frederick Lobb would appear to be a one-time detective in the R.C.M.P. at Lethbridge, who left the force when Superintendent Jungst took charge here and who is understood to have found employment with the Canadian National Railways.  
—Lethbridge Herald.

appeared to be the victor, she declared.

Greta Mather, continuing for the B. C. case, said that the occupation was suicidal to France and that it was an economic fiasco.

Elaine Oberg said that her action of France came after long waiting for reparations and that it was detrimental to France to leave the valley. She stated that this was the only way to collect from Germany.—Vancouver Sun.

# MRS. FLUMERFELT DIES IN VICTORIA, B. C.

Victoria, March 12.—Mrs. A. C. Flumerfelt, wife of the well-known financier of this city, passed away this morning at 1.30 o'clock at the family residence, 835 Pemberton Road.

Mrs. Flumerfelt is survived by her husband, a director of the British American Bond Corporation, Limited, and two daughters, Mrs. Albany Ritchie, of Seattle, and Mrs. (Dr.) Flumerfelt Jessup in England—Vancouver Sun.

Mr. Flumerfelt is also financially interested in the International Coal & Coke Company at Coleman, Alta.

## HILLCREST HAPPENINGS

The regular convention of Turtle Mountain Lodge, Knights of Pythias, took place in the Castle Hall on Tuesday evening.

Mr. F. Pearson is the latest to become master of an auto in Hillcrest, having purchased from Punigall Brothers one of the latest Oldsmobile six-cylinders.

Posters are out announcing a grand concert in aid of the church funds, to be held on March 26th. A fine array of talent is billed and the concert will be worth listening to.

There is a persistent rumor that J. P. O'N., of Blaimore, is to be married soon and will reside in Hillcrest. He will be a valuable asset to the village, having travelled extensively and fast and knows a great lot.

Mr. R. Crichton returned on Friday after a visit to Calgary, where he attended the Masonic convention. On the outward journey all went well, till Stavely was reached, where heavy roads and motor trouble caused them to leave Lizzie and continue the journey by train. Lizzie was picked up on the return and the balance of the trip was enjoyed.

A billiard match took place at the Rex Billiard parlor on Saturday between five Hillcrestians and five Colemanites, each game 200 points. Hillcrest won the series by 115. The teams were as follows: Hillcrest—J. Eccles, J. Graham, J. Roski, J. Pearson and P. Haggerty. Coleman—like Thomas, M. Hylop, R. Emmitt, S. Hadfield, senior, and S. Hadfield, junior.

On Thursday evening, the 19th instant, a merry party took place at the residence of the newlyweds, Mr. and Mrs. Thomas Hale. After a fine repast, a grand time was had. The guests were Mr. and Mrs. J. Mackie, Mr. and Mrs. J. Smith, Mr. and Mrs. R. Crichton, Mr. and Mrs. J. Crichton, Mrs. Douglas, Mrs. Cogwell, Mr. and Mrs. Christensen, Mr. and Mrs. Ed. Royce, Mr. J. F. Royce, Mr. and Mrs. J. Bain, Mr. J. Miller and Mr. A. Walker.

The concert and dance held in the Union hall on Friday night last, under the auspices of the Canadian Labor Party, was a huge success. A splendid concert was listened to which finished up by an attempt to catch the rooster. All attempts failed, however, the rooster being Ed Royce. After the concert the floor was cleared and dancing indulged in until 3 a.m., music being supplied by the Hillcrest Lyric Orchestra. These concerts and dances are the most popular form of amusement in Hillcrest and the last one always beats the previous one. A list of artists will appear in the next issue of this paper.

The annual closing exercises of the Claresholm school of agriculture will be held on Thursday of next week at 8 p.m. The successful members of the ninth graduating class will receive their diplomas in agriculture and home economics. A programme will be held on this occasion, during which addresses will be given by Mr. H. A. Craig, deputy minister of agriculture, and Dr. Salem Bland, of Toronto.

The Alberta government has refused to abolish the supplementary revenue tax.

# QUARTETTE OF COLEMAN SENIOR HOCKEY TEAM REPLIES TO CRITICISM

Coleman, Alberta,  
March 18th, 1924  
Editor Blaimore Enterprise,  
Blaimore, Alberta.  
Dear Sir:

Under the heading "Local Sport," the journalistic molecule who edits the Coleman Journal, in a recent issue, makes some invidious comparisons between the brand of hockey played by the junior and senior hockey teams of Coleman, stating that "imported players have not given satisfaction on the senior team for the last two seasons," and laments the fact that the junior hockey team were unable to finance their home, semi-final and championship games.

With regard to ourselves, we wish to state that we came to Coleman in response to the invitations of a number of prominent citizens, which we fondly imagine is considerably more than the editor of our "rag" can truthfully say of himself, and while we do not claim to rank among the hockey stars of the universe, we do feel confident that we shine a great deal brighter in the hockey firmament than the Journal editor does in the journalistic world.

We might mention in passing that we have been cordially requested by a great number of Coleman's prominent citizens to remain for the next season, and have been advised by them to ignore the rapid vaporings of a "garrulous goof" which appeared in a recent issue of an apology for a newspaper and whose opinion was of no interest to anybody but himself.

Our local "Horace" also states "There is already a feeling that next winter Coleman should stay out of the Crows' Nest Pass senior hockey league and form a local league of two or three or four teams, made up entirely of Coleman residents who are not brought in for the purpose." We presume from this sapient suggestion that the International and McMillan mines are each expected to furnish a team and that the bootleggers and denizens of Jerusalem Square combine to form a team, and we respectfully suggest that the fourth be drawn from Bishop's Battalion upon demobilization, the personnel of which would no doubt readily absorb the local "home-brew." Judge Gresham, of Blaimore, might be prevailed upon to hand out the penalties, with "Cy" (Whiskers) Walker and Tanglefoot Jimmie as goal umpires and George V.L. of Greece, to attend to the take-off.

This proposed league would go over great. The "feeling" and the moral support of the influential Coleman Journal is sufficient guarantee as to that.

With regard to the small attendance at the Junior games, we can merely express our surprise. We have always attended, when convenient, and paid our admission fee. Did you, Mr. Journal Editor?

That the juniors have been playing classy hockey, their record clearly shows, and with the powerful influence of the local press and the enthusiastic "feeling" behind them, their regrettable financial status is beyond our comprehension. On the other hand, despite the comparatively inferior class of hockey displayed by the seniors, we have usually played to a fair-sized audience.

We were volunteered the information by one of last year's hockey officials that when he approached one of the star players of the junior team to play in a senior game, he was met with a demand for twenty-five dollars cash before this vendor of classy hockey would appear on the ice. This modest demand was ignored and the seniors were compelled perforce to finish their own particular inferior class of hockey. We simply pass along this statement as it was given to us, without comment.

We regret as much as the most rabid fan that the Coleman senior hockey team did not make a better showing this past season, and while we do not intend to offer any alibi, we might mention the fact that the team had no regular goal-tender

## FOR SALE

Farm or Ranch Land, 160 acres, 1 1/2 miles south of Burns Station, no improvements, good pasturage adjoining. Price \$7,000 per acre. Easy terms. Will take house property as part trade. Apply to The Enterprise, Blaimore.

## FARM FOR SALE

Most desirable farm land, 160 acres, located in South Fork Valley, immediately south of Ft. Grove Ranch, half mile river front, 40 acres hay land, 20 acres broken, 20 acres brushed ready to plow, good pasturage, good water springs, habitable house, 18 x 24, and stable, 18 x 24, land all fenced and cross-fenced. This land is partly covered by alder brush and is extremely rich in fertility. It is but half mile from the proposed Carbon Hill-Burns railroad line. Proposed new trunk road skirts east boundary and new bridge to be erected this year will bring the farm market within fourteen miles of the farm. For further information, apply to The Enterprise, Blaimore.

## SALE OF LAND

The Municipal District of Livingston, No. 70, will offer for sale by Public Auction at the office of the Secretary at LUNDRECK, that parcel of land described as N.E. 1/4 Sec. 12, T. 8, R. 3, West 1/4th Mer. On Wednesday, March 26th, 1924, at 2 p.m. Subject to reserve bid and subject to reservations contained in the grant from the Crown. Terms cash. H. C. TRIST, Sec.-Treas.

## FOR SALE

Quantity Registered "Victory" Seed Oats, government test and grade regenerated, yielded 93% bushels per acre 1923 crop, weigh 48 lbs to the bushel, germination test 99 per cent in 12 days, 100 per cent pure, re-cleaned and sacked in new sacks ready for seeding. Price 65c per bushel, f.o.b. Cowley or Lundreack, sacks 15c extra. Apply at once to

through the entire season, that all our games were tightly contested and that though beaten, we were never disgraced or outclassed.

In conclusion, we might say for the benefit of the philanthropic gentleman who "talks at random" and furnishes toilet paper gratis to a great number of residents of this town, that before he takes it upon himself to publish an opinion on hockey, that he gets the opinion of the people who know the game, and who furthermore support the game, and whom, as we have

**Why Ford Predominates**

**Endorsed By Fleet Owners**

In almost every business where fast and economical delivery service is a factor, Ford trucks have established an enviable reputation.

The experience of Robert Simpson Company Limited, is a typical example. The Robert Simpson Company operates one of the largest truck fleets in Toronto, 55 Fords.

This fleet has proved so satisfactory that it is being constantly enlarged so practical and economical in operation that during the past five years not a single car or truck has been traded in. The prompt and efficient delivery system which is an inseparable part of this store's service to the public is largely due to the flexibility and staunch endurance of this Ford delivery fleet. The Ford has the confidence of its users. That's why there are so many Ford users.

## SANTA PATRICIO'S DAY

Santa Patricio, granda man,  
Live-a far ovvr sea;  
Take-a da cake-a, kill-a da snak-a,  
Make-a da Irish free.  
So on da Santa Patricio day  
Ireland-a map feel fresh;  
Ow-a New York, don't have a da whisk,  
Have-a da fine process.

Santa Patricio, granda man,  
Fix-a da Irish quick,  
Catch-a da job, rule-a da mob,  
Run-a da political.  
Make-a da ver' big Irishman  
Boss-a da Tammany hall;  
Poor Dago man sell-a da banan,  
Take-a no mon' at all!

Santa Patricio, granda saint,  
Make-a da Irish mart;  
Catch-a da "cush," in wid a "push,"  
Dago push-a da cart.  
W'y daga da Dago have-a one saint,  
Help 'im along like-a dat?  
Ow-a New York, don't have to work,  
Hold-a da office fast!

Santa Patricio, granda man,  
Make-a me feel like-a fool-a;  
Dam-a da shame, change-a ma name,  
Call-a me Pat O'Tool-a.  
Den on da Santa Patricio day  
I wear-a da Shamrock new;  
Folks say "Dere go Antonio—  
He is one Irish; too!" —Porky.

The Old Country curriers challenged  
the local Canadians to a game, which  
was played on Monday night. The  
Canadians went by a narrow margin.

## COWLEY HAPPENINGS

Mr. M. A. Murphy and children  
were Macleod visitors over the week  
end.

D. W. Davis, formerly employed at  
the Union Bank here, paid a visit to  
Cowley on Tuesday.

Again the stork has paid a visit to  
town, leaving this time a son at the  
home of Mr. and Mrs. James Gilmore.

Mr. Morrow, who was here during  
the winter as night operator, returned  
for the St. Patrick's dance on the  
18th.

The St. Patrick's dance given by  
the rink committee, was a great suc-  
cess. The music and the floor were

good. Radio is becoming increasingly popu-  
lar in our town. A number of new  
sets are being installed. Davy Mur-  
phy, on a small set made by himself,  
at first trial heard Springfield and  
Boston, Mass.

The Hillcrest guy who a few weeks  
ago stated that the new liquor act  
will be in force by 1938 was not so  
far out either. The pupils in the  
local high school had the act amend-  
ed and completed in better form about  
six weeks ago than will be the case  
when it is fully passed by the kids at  
Edmonton.

If a man has sunshine in his soul  
he doesn't need moonshine in his  
stomach.

## WORLD HAPPENINGS BRIEFLY TOLD

Emigrant traffic from Germany to Canada during the coming season should reach unprecedented proportions, according to officials of the White Star-Dominion Line.

During the two years ended March 31, 1923, there was an increase of 3,641 in the number of war veterans who have taken up farms under the soldier settlement board. At March 31, 1921, the total was 25,443, and at the end of the last fiscal year was 28,391.

German Cabinet officials in their endeavors to keep up with the times and make two or three speeches daily in cities long distances apart, have resorted to the use of microphones in making quick trips to various parts of the republic where they had speaking engagements.

The Alberta Legislature, by a standing vote, expressed its gratitude to Dr. J. H. Collip, of the University of Alberta, codiscoverer with Drs. McCleod, Hasting and Macleod, of the insulin treatment for diabetes, for his distinguished service rendered to humanity.

An offer of £100,000 for proprietorial rights in a well-known British medical journal; it is understood, has been made by prohibitionists who, believing that the ultimate verdict on the matter of prohibition remains with the medical profession, are anxious to secure the journal for propaganda purposes.

## HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, cure indigestion and promote a healthy sleep. They are absolutely guaranteed free from opiates and may be given to the newborn babe with perfect safety. The new sales tax will not increase the price of Baby's Own Tablets, as the company pays the tax. You can still obtain Baby's Own Tablets through any medicine dealer at 25 cents a box or, by mail, post paid, from the Dr. Williams' Medicine Co., Brockville, Ont.

There's no denying the fact that the man who would sit down on the silk covering of a bed to take off his shoes is a brute.

Try living on 15 cents a day if you are troubled with dyspepsia.

**Wretchedness  
or  
Constipation**  
Can Be Quickly Overcome by  
**CARTER'S LITTLE LIVER PILLS**  
Purely vegetable—act more gently on the liver. Relieve biliousness, headache, indigestion. They do their duty.

## British Capital Comes to Canada

Will Build a Chain of Factories From Coast to Coast

Results of a recent visit to Toronto by the Earl of Darnley, V.C., and Sir Harold Bolton are embodied in an announcement made to the effect that they have leased five acres from the harbor board for a 21-year period for a company sponsored by British interests to be known as the Dominion Tarp and Paper Company.

A factory to cost some \$200,000 will be built upon the site. It is further announced that this factory is only one of a chain which will stretch from coast to coast and that similar sites already have been secured in Montreal, Winnipeg and Vancouver.

## C.P.R. Improvement Programme

Preparing for Large Volume of Immigration and Increased Production

In anticipation of a large volume of immigration in this and succeeding years, with a consequent increase in production and growth of traffic, the Canadian Pacific Railway will proceed with its usual programme of improvements and betterments. The betterments will take the direction of providing additional facilities for the efficient handling of freight and passenger traffic, and no expenditures will be undertaken which will not have those special purposes in view.

## Thinks Swearing All Right

Yes, providing the provocation equals the offence. This is the opinion of Smith's rose corset. Far better to use "Putnam's" Painless Corn Extractor, it does it better. No corn can last if "Putnam's" is applied. Refuse a substitute, save every where.

## How Trade Grows

Figures Show in Indisputable Way That Business in Canada is Growing

The net increase in traffic on all Canadian canals in 1923 was 1,196,261 tons, or 11 per cent. over the 1922 traffic, according to figures issued by the Bureau of Statistics. Canadian steam vessels using the St. Lawrence canals showed an increase in tonnage of 594,327 tons, and United States steamers showed a decrease of 269,968 tons.

Total trade figures for the month of January show an average balance of over \$3,000,000, as compared with the same month a year ago. The total trade for January, 1924, was \$13,613,327, as against \$12,744,787 in the corresponding period of 1923. Exports for the past month totalled \$69,157, while imports amounted to \$65,486,089, leaving a favorable trade balance of \$3,107,107.

The Oil of the People—Many oils are sold and sold by Dr. Theodor Bielegrat Oil continues to maintain its position and increase its sphere of usefulness each year. Its electric qualities have brought it to the front and kept it there, and it can truly be said to have benefited it and would use no other preparation.

## B.C. Apples in Demand

Heavy Shipments Are Made to the Prairie Provinces

At a special general meeting of the Vernon Fruit Union, Messrs. A. T. Howe and Hombing were re-elected as representatives of the union on the directorate of the Associated Growers of British Columbia. In a report of last year's work, it was stated that the Associated Growers had shipped 2,225,000 boxes of fruit to the provinces of Manitoba, Saskatchewan and Alberta, while 637 cars had been sent to the United Kingdom.

In addition 108 cars had been sent to various foreign markets, including Holland, Belgium, Scandinavia, China, Africa, New Zealand and Mexico. Direct representation of the Associated Growers in Great Britain was urged in the report.

Westward Movement of Grain  
Alberta's grain movement to the Pacific Coast continues at a record breaking pace, according to a report issued by the Canadian Pacific officials. Since the beginning of the season 11,815 cars have been shipped to the coast, or approximately 17,000,000 bushels.

Lethbridge Oil Wells  
It is reported that another oil refinery is to be erected at Lethbridge by the owners of McLeod Street, Nos. 2 and No. 1 wells, which have a producing capacity of about 500 barrels. Vancouver capital is reported to be behind this new venture.

When a sick child is never going to get married the means it about as much as the man who says he has more money than he knows what to do with.

As a rule, what the heart longs for the head and the hands may obtain.

Minard's Liniment Relieves Colds

## PIMPLES BLOTCHES

All skin diseases such as pimples originate through failure of the kidneys and liver. All taints that block the avenues of health must be removed. Dr. Hamilton's Pills do this quickly. They cleanse the system, make the skin smooth, restore roses to the cheeks, and give clear, dainty complexion.

## DR. HAMILTON'S PILLS

For good looks, good health, and good spirits, there is nothing so sure as Dr. Hamilton's Pills. Six boxes, five for \$1.00, all dealers, or The Catarthozone Co., Montreal.

## Coal Output in Alberta

Production For Year, 1923 Was 6,866,924 Tons

Over two million tons of Alberta coal were sold to Canadian points outside the province and to the United States during 1923, states the annual report of the provincial mines branch. The total production of coal for the year was 6,866,924 tons, 1,827,788 being disposed of for consumption in Alberta, 1,937,753 for other provinces and \$3,557 tons in the United States. To the railway companies \$1,110,121 tons were sold. The total production for the coal mines in Alberta during 1923 was 6,866,924 tons over the total for 1922. Up to the end of 1922 the report cites Dominion statistics to show that Alberta mines since 1858 produced 49,419,510 tons of coal to the approximate value of \$121,715,815. The domestic coal fields of the province turned out 3,161,741 tons of coal in 1923, production in the sub-bituminous coal fields totalled 463,461 tons.

Mother Grimes' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

## Purchasing Power of National Railways Important Factor

Industrial Life of Dominion Benefits By Equipment and Supply Orders of System

An idea of how important a part is played in the industrial life of Canada by the Canadian National Railway in its capacity as a purchaser of well as a carrier of goods is to be seen in the orders for steel rails which have been placed in Canada.

An order for 56,000 tons of 85 and 100-pound steel rails has been placed with the British Empire Steel Corporation of Sydney, Cape Breton, by the Canadian National Railway, and another for 40,000 tons of 85 and 100-pound rails has been placed with the Algoma Steel Company at Sault Ste. Marie, Ont. These two companies rank among the biggest steel manufacturing companies in North America, employing many thousands of hands, and these orders, placed at this time of the year by the National system, will prove a big factor in reducing unemployment in the Dominion.

Portions of the orders have been delivered to the railways and the rails will be used to rehabilitate certain portions of the trunk and branch lines throughout the system. Reduced to trackage the total order represents between 350 and 400 miles of steel.

## Clark's Spaghetti for Lunches

Clark's Spaghetti, with Tomato Sauce and Cheese is an ideal luncheon dish, or entrée. Deliciously flavoured, it is a fine substitute in Lent for the meat course.

"Let the Clark Kitchens help you."

A woman is so used to planning things that she can't understand why a man should make so much fuss over a missing button.

## THE REIGN OF SOLOMON

Golden Text: The fear of Jehovah is the beginning of knowledge. Proverbs 1:7.  
Lesson 1: Kings, Chapters 2 to 11; 2 Chronicles, Chapter 1.  
Devotional Reading: Psalm 45:1-7.

The Text Explained and Illumined  
1. Solomon's Trust in God: His Prayer for Wisdom, 2 Ch. 1:7-12. The night of the sacrifices at Gibeon (see The Historical Background) had appeared to Solomon in a dream and said, "Ask what I shall give thee."

"Choose well; your choice is brief and yet endless" (Goethe). Solomon first spoke of his own ascent to the throne of Israel as a great kindness shown to his father David; compare 1 K. 1:48. He besought God to let his promises unto David be established. "For thou hast made me king over a people like the dust of the earth in multitude." This ostentatious hyperbole seems a reference to the promise made to Abraham in our first lesson of the 29 year.

Then Solomon made his famous choice: "Give me now wisdom and knowledge; that I may discern and come in before this people; for who can judge this thy people that is so great?" And that such gifts are desired by those who are called to administer justice. Solomon in his dream doubtless expressed his waking and deliberate wish. He had wisdom enough to make him wish for more (Woods). "Solomon's prayer exhibits a strong sense of responsibility and a conviction that his position involves corresponding duties and a consciousness that truth and falsehood, right and wrong, are not always easy to distinguish (L. K. J.); and that such gifts are desired by those who are called to administer justice." Solomon in his dream doubtless expressed his waking and deliberate wish. He had wisdom enough to make him wish for more (Woods). "Solomon's prayer exhibits a strong sense of responsibility and a conviction that his position involves corresponding duties and a consciousness that truth and falsehood, right and wrong, are not always easy to distinguish (L. K. J.); and that such gifts are desired by those who are called to administer justice." Solomon in his dream doubtless expressed his waking and deliberate wish. He had wisdom enough to make him wish for more (Woods). "Solomon's prayer exhibits a strong sense of responsibility and a conviction that his position involves corresponding duties and a consciousness that truth and falsehood, right and wrong, are not always easy to distinguish (L. K. J.); and that such gifts are desired by those who are called to administer justice." Solomon in his dream doubtless expressed his waking and deliberate wish. He had wisdom enough to make him wish for more (Woods). The roads on the prairie, from Burnis east, are better than at any time last year.

FOR SALE—New 1923 Ford Coupe only run about 100 miles. Cheap for cash. Apply to Enterprise, Blairemore, 20-21.

Rumor has it that a sack of beer from the rest room of the local court house had a very narrow escape from consumption last week.

The town of Pincher Creek has purchased a chassis truck from the Pincher Creek Motors for fire-fighting purposes.

Dr. Salem Bland, of Toronto, is this week conducting a series of special services in the Methodist church at Claresholm.

Walter Howe leaves tonight for Philadelphia, where he will join his wife and son, who have been residing there during the past winter.

Hatfield, the rain-maker, has entered into a contract with the farmers of Southern California to produce two inches of rain, for which he is to receive \$8000.

W. T. Eddy, who for a long time has been undergoing medical treatment, has quite fully recovered and was a visitor to Blairemore last week end.

Mrs. A. C. Flumerfelt, wife of the well-known financier of Victoria, is dead. Mr. Flumerfelt is a director of the International Coal Co. of Coleman.

The new Alberta Election Act provides for proportional representation in the cities and for the transferable vote in rural constituencies. The \$100 deposit by legislative candidates is abolished and ten signatures to nomination papers are required instead of four as at present.

The G.W.V.A. dance held in the opera house last Monday night was well attended and the veterans are very pleased with the results. It is quite likely the Vets will have a dance every month or so and as they are running them on clean, orderly lines it is hoped they will receive good patronage.

Increase in the accommodation at Jasper Park lodge by fifty per cent has been announced by Canadian National Railway officials. Operation of the new through train service from Chicago, via Duluth and Winnipeg, to Jasper National Park, starting June 7th is expected to give a tremendous impetus to the tourist traffic at that point this summer.

Children have found access to the old tuberculosis sanatorium at Frank and daily they are to be found running through the building. The authorities should look into the matter and see that the doors are barred to prevent the entrance of anyone. The place was at one time watched by the A. P. P., but it seems that there has been no caretaker since the A. P. P. moved to Blairemore.

FOR SALE—White enamel dresser and bed. Phone 247, Blairemore.

Turkey is trying to drive out all Christian influences, and now it is hard to get a drink down there.

A special train conveying Vice-President D. C. Coleman and party enroute from the Pacific coast, passed through Blairemore Sunday afternoon.

At the session of the Masonic Grand Lodge at Calgary last week, Rev. S. Middleton, of Macleod, was installed as grand second principal.

What is the difference between a coconut and a Jew? You can get a drink out of a coconut, but what you can get out of the Jew will form the basis of another story.—Ex.

At Macleod last week, Judge Tweedie granted an absolute order in the cases of Morton vs. Morton, of Blairemore, and Hughes vs. Hughes, of Pincher Creek.

Mr. Arthur Shearer received word yesterday of the death of his father, Mr. R. C. Shearer, which occurred Tuesday morning at Fairmont, West Virginia, at the age of seventy-five.

Canada has more than two million persons, or nearly one-fourth of its population, at school, 60,000 of whom are registered at colleges and universities, and 13,000 at Indian schools.

The hospital of the International Grenfell Association at Northwest River, Hamilton Inlet, Labrador, was completely destroyed by fire on January 25th, with loss of one male patient.

The conviction of Dr. A. E. Hardin, Granum physician, on a dope selling charge, which resulted in the imposition of a \$200 fine in Calgary police court, was quashed by Judge Winter in the district court last week.

Mr. and Mrs. P. McEwen, of Cowley, wish to announce the engagement of their third daughter Edith Florence, (nee Peggie) to Mr. R. T. French, of Vancouver, the wedding to take place in Vancouver.

A meeting of the local G. W. V. A. will be held on Sunday afternoon, March 30th, at 2.30. All members and ex-service men are requested to attend. The place of meeting will be announced later.

James Eddy, well-known leading business man of Burnis, has purchased the grocery business of Wostenholme & Co. at Bellevue, and took charge on Monday. Mr. Eddy will continue to operate his store at Burnis.

Blairemore has a new club and a lady member of that club was heard to remark the other day that the club is a social affair, run on a friendly basis, and we meet once a week. There are included in its membership the Standard Oil representative, representatives of the coal interests, the leather interests, the beef interests, the railroad and the silk interests, the glove interests, the golf ball interests, the cotton interests, the fertilizer interests, the banking interests, express company interests, and a number of other interests. The only big interests not represented are organized labor and prohibition.

## BELLEVUE LOSES FIRST ROUND WITH SELKIRKS AT WINNIPEG

After eliminating Melville from the Allan Cup play-off by a total count of 6 to 3, Bellevue lost the first of the Winnipeg series against Selkirk last night by a score of 3 to 1. It is felt that Bellevue can secure the long end of the score tomorrow night.

Mrs. K. K. Good was a visitor in town for a few days during the week.

Read the ad of the F. M. Thompson Co. on the front page. It will save you money.

William Lorne received word this week of the death of his father on Sunday last, in Scotland.

A man is but a worm of the dust—he comes along, wiggles about a while and finally some chicken gets him.

We understand that William Turner was obliged to return to his bed last week end, suffering from a slight relapse.

James Crowder, local inspector of mines, was removed to Calgary last week, where he is being treated by a specialist.

We understand that Mr. L. H. Putnam, in behalf of a couple of clients, has taken an option on the purchase of the Union hotel at Frank.

James McGeechie, who left here for the Old Country about the first of the month, was due to reach his home last week end.

Fresh cut Daffodils, per dozen 45c. Saturday at Thompson's.

During the late hours of Monday night, a premises at Bellevue was entered by some unknown party and all the cash was extracted from a slot machine.

Jack O'Neill was the lucky winner of a beautiful lady's hat at St. Anne's bazaar on St. Patrick's day. He will be at home to callers any time after Lady Day.

A newspaper is expected to please everybody and anyone who feels that we are not doing service in that line should don our robes and experiment themselves.

Unconfirmed reports say that an African lion swallowed a flivver a few weeks ago. He forgot to shut off the engine, however, and shook to death in fifteen minutes.

Our eyes simply dazzled at the first flash of a diamond ring worn by one of our fairest young ladies this week. Were we not so bashful, we would attempt to congratulate.

A Hillcrest merchant has decided to cut out trade with Blairemore until The Enterprise takes back a statement made in its last issue. Another proof of the power of the press.

Frank Harris, former editor of Pearson's Magazine and biographer of Oscar Wilde, has purchased the Paris Evening Telegram from the Captain Jefferson Cohn interests.

The many friends of Mr. James Naylor, of Frank, will regret to learn that he was stricken rather seriously ill at his home last week end. He is now on his mend; we are glad to say.

The sale of work and tea held in the Castle hall on Friday evening last by the Pythian Sisters, was a real success. In spite of the fact that but a small number of articles were on sale and times rather quiet, upwards of \$150 was realized.

The contract for the rebuilding of a portion of the main trunk road around Crows' Nest Lake was let on Monday of this week and work has already commenced. We understand that Mr. McDonald, who is supervising the work over the Frank Slide, will also supervise the work at Crows' Nest Lake.

## What is a Board Company?

A property owner buys fire insurance for the protection it affords, and in advancing the premium as his part of the contract, takes it for granted that the insurance company will fulfill its part of the obligation. While, for the most part, the protection offered by the company consists of the capital contributed by the stock holders, the company must derive sufficient premium income on the liability it assumes to not only keep that capital intact but to create a proper reserve for contingencies and other contingencies, and to pay a reasonable return by way of dividends to its shareholders.

It can thus be readily seen why a fire insurance company should find it their first duty to secure an adequate rate, but, at the same time, the difficulty of any individual knowing just what this adequate rate should be can be easily understood. Various forms of rating schedules have been devised at different periods based on many years' experience in the business until today these schedules have reached an almost scientific basis, whereby the different hazards, inherent, exposure and configurations, are accurately measured.

Now it can readily be seen that the maintenance of rating bureaus by individual companies in these days of world-wide interests would entail unnecessary expenditure and effort, and it is for this very reason that the fire insurance companies have affiliated in various sections of the country in the making and publishing of rates on which basis the cost of each company is comparatively, and, in fact, unbelievably small.

But the work of these organizations has not been confined solely to the making and publishing of rates and the taking of necessary precautions to see that these rates are enforced, but additional services are maintained which render real service to the public. A corps of engineers, water works experts and electrical experts is now a part of every well-equipped office of a Board of Fire Underwriters and through these services the public secures expert advice and co-operation in eliminating fire hazards, improving protection, and thus ultimately reducing insurance costs. These are practical benefits, and, it is an undisputed fact that the average insurance rate in this country is now lower than at any other time in the history of the business.

So members of the Underwriters' Associations are commonly called Board Companies, and those not members, Non-Board Companies. The latter usually maintain no rating facilities but either guess at a rate or take the rate published by the Underwriters' Association as a basis and make whatever cut they think necessary to secure the business. It is not very difficult to form an intelligent opinion as to what effect any such haphazard method of arriving at a rate will eventually have on the security offered, for as previously explained the premium charged must be sufficient to cover the actual cost of operation and provide sufficient reserve to take care of unforeseen contingencies such as conflagrations.

It needs only a glance at the figures published by various insurance departments to convince us that the margin of underwriting profit has been exceedingly small, so small, in fact, that any material reduction in rates means an actual loss to the companies writing the business, and, therefore, a resultant lowering of the security offered the policy holder in return for the premium paid.

INSURE ONLY IN BOARD COMPANIES AND PLAY SAFE.
